

RELEASE DATE: 11th February 2020

Ingenico Enterprise Retail collaborates with 3C Payment to deliver new technology and enhance security for merchants.

The collaboration drives forward an end-to-end revolutionary payment platform to provide a secure and seamless customer experience in-store.

Ingenico Group Enterprise Retail, the global leader in seamless payment leading manufacturer of point of sale payment terminals, and 3C Payment, an independent Global Payment Service provider, have expanded their relationship, to bring to market two new terminal solutions which process payments through the 3C Integra Payment Gateway with Ingenico's DESK/5000 & MOVE/5000 payment terminal devices. The new payment terminal solutions satisfy the latest security requirements for PCI-PTS 5.x and Point-to-Point Encryption (P2PE) with the Telium Tetra Native T3 OS developed directly to 3C Payment's proprietary Integra gateway platform.

The DESK/5000 solution is ideal for luxury hotels and retailers where international customers who want to pay in their currency of choice and can opt for Dynamic Currency Conversion (DCC). The solution will also support a wide range of international payment methods including Alipay & We Chat Pay, which reaches Chinese customers both home and abroad. The MOVE/5000 solution is designed for intensive use within Hospitality environments at Hotels, Bars and Restaurants and supports Pay@Table functionality such as quick recall of open checks & split bill capability.

Both Ingenico and 3C Payment will continue to work together to develop P2PE integrated products that enhance mutual business opportunities and ultimately cover more vertical markets.

Lee Jones, Director of Sales and Business Development Ingenico Enterprise Retail at Ingenico Enterprise Retail commented: *"The way consumers want to pay is evolving, therefore we need to remain ahead of the game to keep our retailers relevant in this ever changing market. Through this partnership with 3C Payment, we're creating an even stronger offering to solidify our customers in the future of retail."*

Craig Borrett, Chief Product Officer at 3C Payment, added: *"We are delighted to further enhance the product range between 3C Payment and Ingenico Enterprise Retail through certification of our 3C Integra terminal application with the Ingenico*

Tetra Desk & Move 5000. Our mutual Pan-European customers will benefit greatly from innovative, secure and flexible payment solutions through a single interface across multiple countries."

About 3C Payment

3C Payment makes it easy for consumers to pay anyhow, anywhere, using highly secure specialized transaction flows that support the needs of our clients. The services we offer cover the full transaction journey from integrated P2PE EMV hardware linked to our hosted infrastructure and payment gateway services, to online and in-app payment acceptance linked to onsite and ERP systems. Our secure 3C Integra hosted platform unifies multiple payment channels allowing merchants to confidently trade in person and online in over 45 countries worldwide with local or centralized reporting accessible from anywhere through our web portal.
